

Announcement

Goal of the Hackathon

Create an intelligent human

- different activities (“components”)
- different groups (10ish pax/group, 3-4pax/component)
- each component works in 3 “sprints” (1h30)
- find a story to tell across components

Final Presentation

- Each group, 5 minutes max
- A **demonstration** of the components of your intelligent human
- An explanation of **how the components work**
- Additional material you could come up with

Tentative Components

- 1 Speech Recognition
(non-technical)
- 2 Knowledge Representation
(non-technical)
- 3 Storyboard&Integration
(non-technical)

- 4 Object Recognition
(technical)
- 5 Physiological Sensors
data (technical)
- 6 Physical Computing
(technical)

Tentative Programme

10:00 Kick off

10:30-12:00 Sprint 1

12:00-13:30 Lunch&Poster Session

13:30-15:00 Sprint 2

15:00-15:30 Best IntroAI project voting

15:30 - 17:00 Sprint 3

17:00 - 18:00 Final presentations

18:00 dinner, drinks & music

Other stuff

- **Bonus points:** to be added to the final group project
- Important Check your name on the list
 - Not coming ? → Email us
 - If you are registered but will not come, your group will lose points
- Want to come but no space?
 - Use the waiting list : <https://forms.gle/BiigupQ4c3BSKaS68>
