On Diversity, Inclusion and Equity

The Mixed Classroom Educational Model

How are we feeling today?

On a scale of Crash, how are you feeling today?

On Diversity, Inclusion and Equity

About Diversity

Van Dale:
di·ver·si·teit (*de; v*)

1 diversity, variation

2 the phenomenon of having people from different ethnic or cultural backgrounds together

Diversity is about all the ways in which we differ from each other (Hudson Jordan, 2011; Kramer, 2019).

We are **born with** some of these differences. Other differences arise **later in our lives** and are **changeable**. For example, your clothing style or interests.

Different definitions of diversity mention **non-visible** elements, such as sexual orientation, culture, economic status, etc., in addition to **visible** characteristics, such as sex, age, skin colour. (Akaiouar, 2020).

Gonzales & Densi (2009) add that that differences in personal characteristics also determine **how people perceive each other**.

But what do we perceive as diverse?

WHEEL OF POWER/PRIVILEGE

What's your position in the wheel?

What questions (and/or associations) does this wheel evoke in you?

INTERSECTIONALITY

Professor Kimberlé Crenshaw, 1989 paper:

“Demarginalizing The Intersection Of Race And Sex”

1. Recognizing multiple inequalities
2. Representativeness: this is your space
3. ~~Single identity markers~~
4. Identity as relationship

The term creates an **awareness that combinations of identity aspects**, one's position in society, equity of opportunity determine the degree of inclusion and exclusion.

INCLUSION

"Diversity asks, 'Who's in the room?'"

Equity responds: 'Who is trying to get in the room but can't? Whose presence in the room is under constant threat of erasure?'"

Inclusion asks, 'Have everyone's ideas been heard?'"

Justice responds, 'Whose ideas won't be taken as seriously because they aren't in the majority?'"

Diversity asks, 'How many more of [pick any minoritized identity] group do we have this year than last?'"

Equity responds, 'What conditions have we created that maintain certain groups as the perpetual majority here?'"

Inclusion asks, 'Is this environment safe for everyone to feel like they belong?'"

Justice challenges, 'Whose safety is being sacrificed and minimized to allow others to be comfortable maintaining dehumanizing views?'"

- Dr. DL Stewart

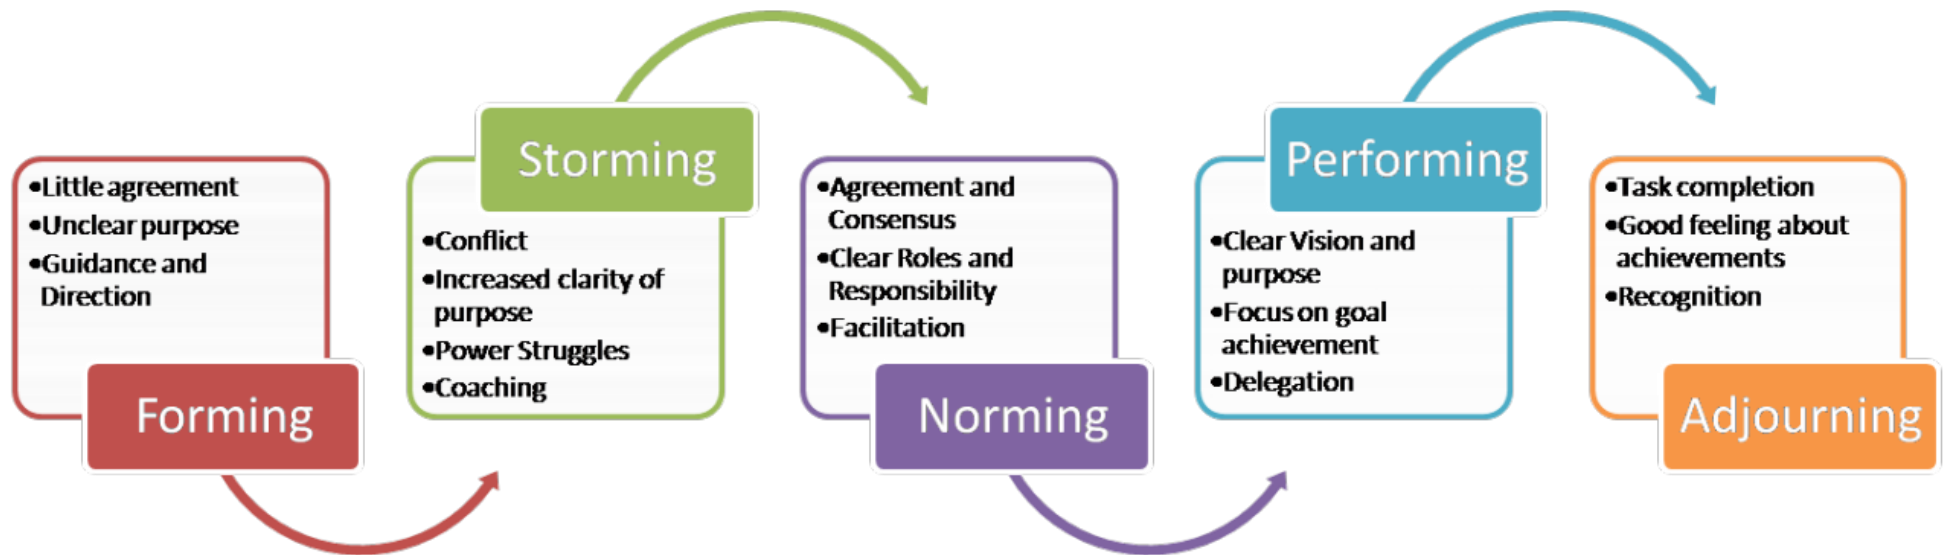

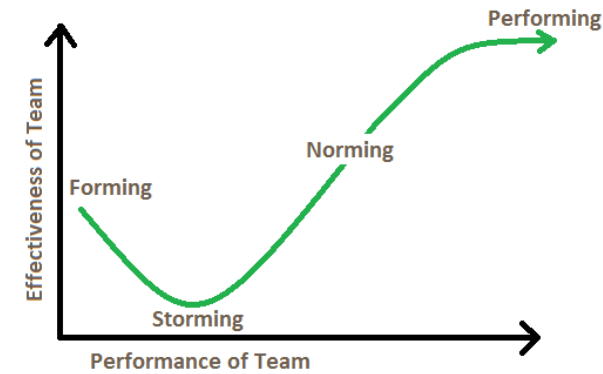

Group processes– positioning yourself as a person

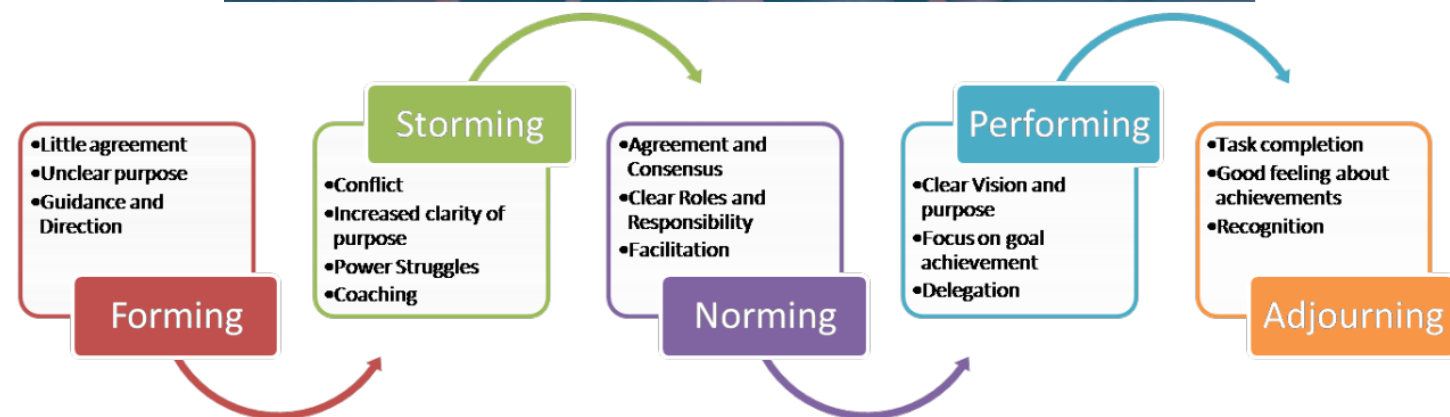

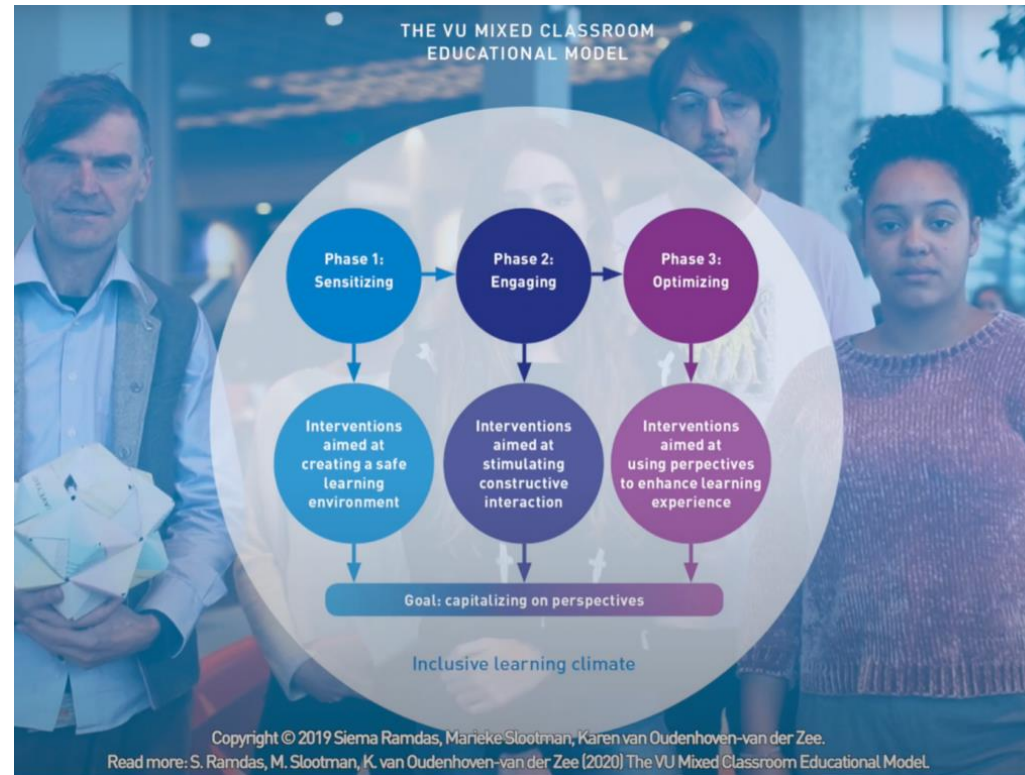

Meaningful collaboration – Tuckman's model

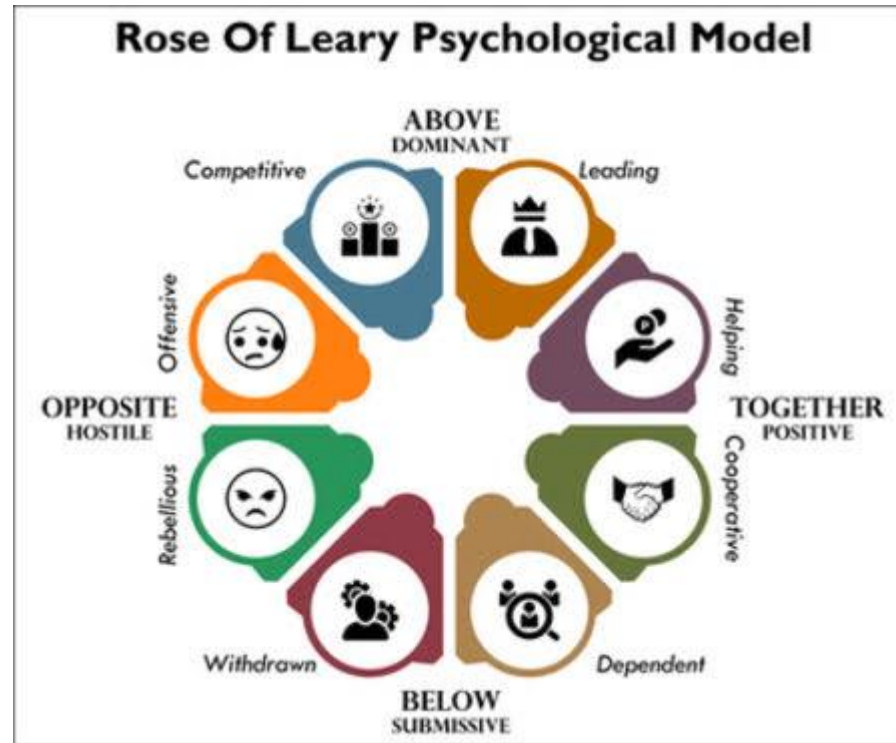

Tuckman's Team & Group Development Model

The mixed classroom model

Meaningful interaction – Leary's Rose

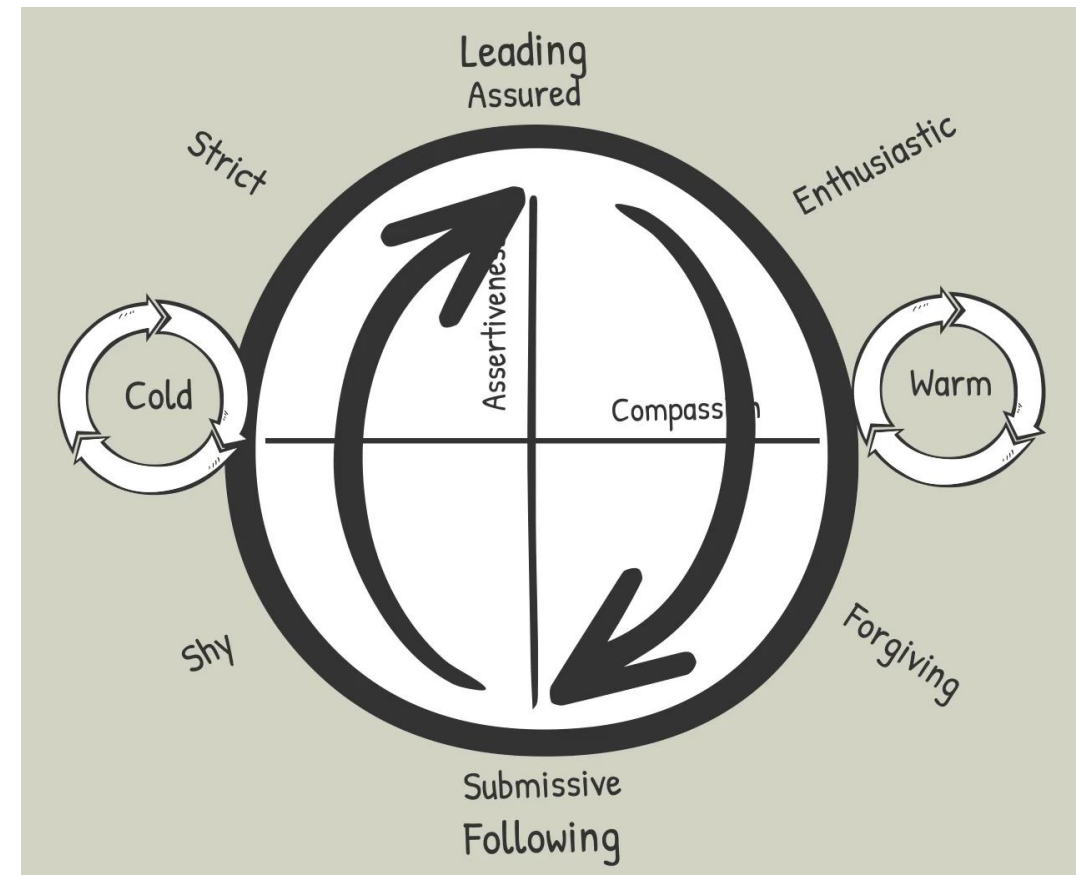

Leary's Rose (Interpersonal Circumplex)

Principle of symmetry

- Striving for self-interest (cold or "against") results in similar behavior
- Striving for common interest (warm or "together") results in similar behavior

Principle of complementary

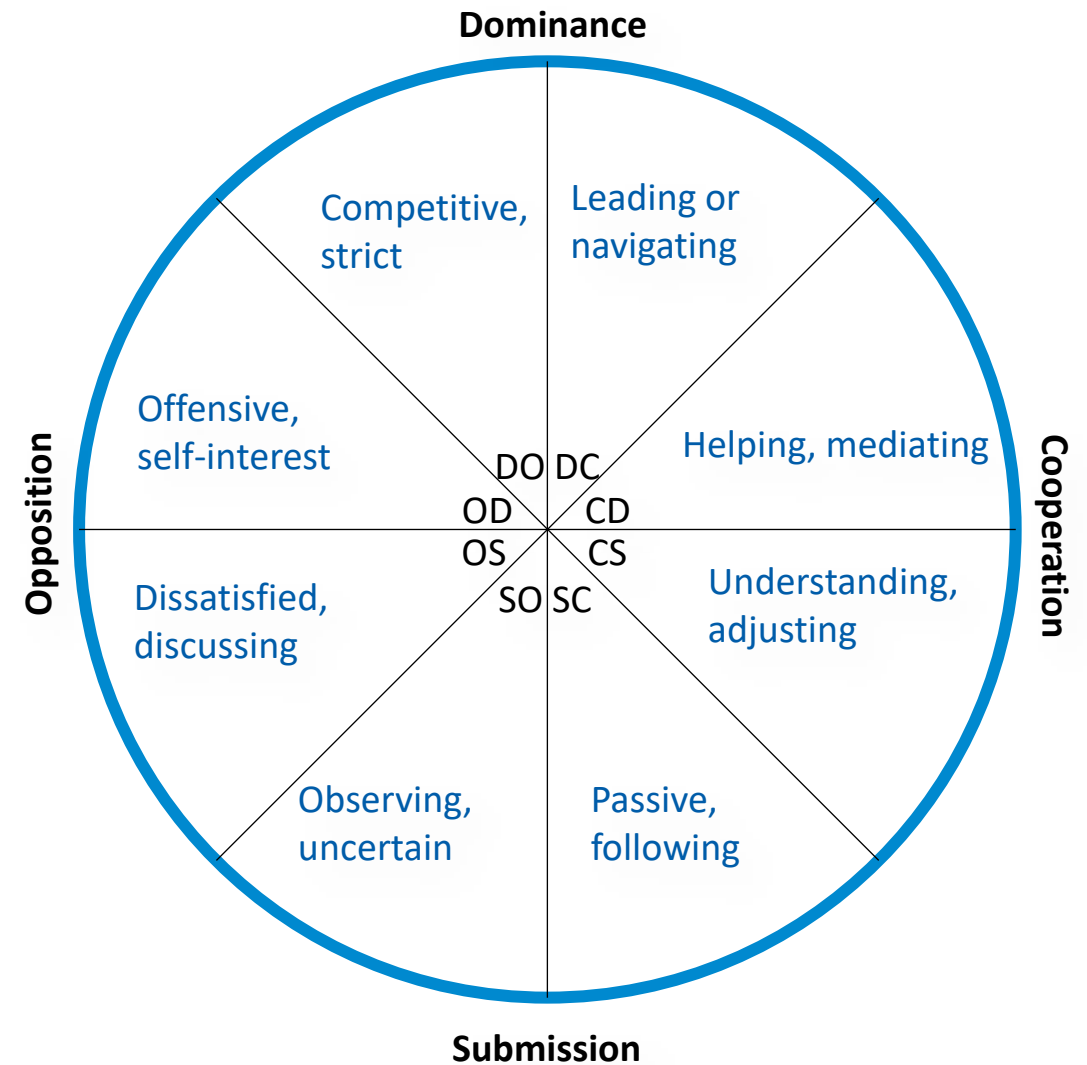

- Leading results in following
- Following results in leading

Leary's Rose: in more detail

The interpersonal circle (or interpersonal circumplex) is a model for conceptualizing, organizing, and assessing interpersonal behavior, traits, and motives¹.

- It is a tool to help to understand behavior of yourself, but also of the one(s) your interacting it.
- You can also use it to influence the behavior of others

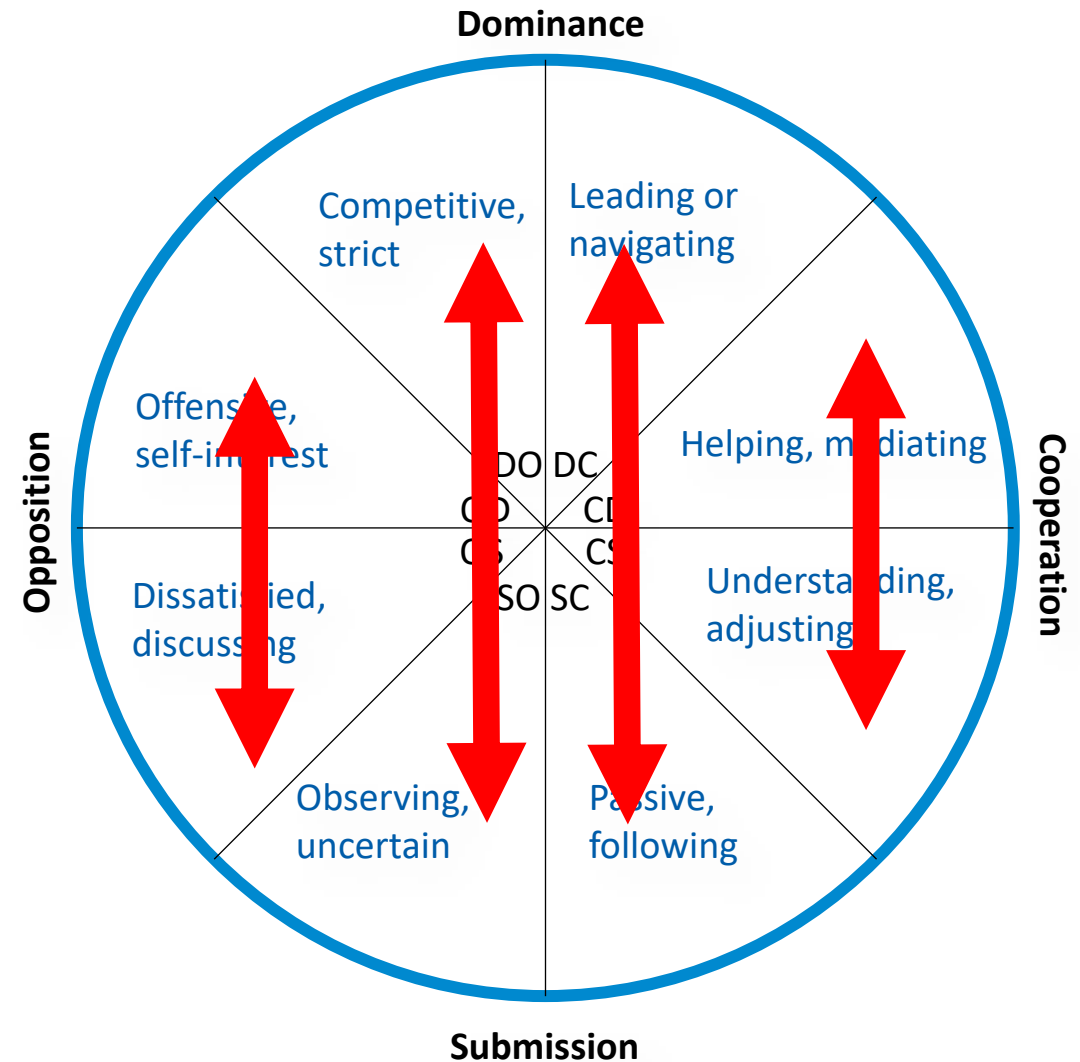

Leary's Rose: in more detail

Principle of symmetry

- Striving for self-interest (cold or “against”) results in similar behavior
- Striving for common interest (warm or “together”) results in similar behavior

Principle of complementary

- Leading results in following
- Following results in leading

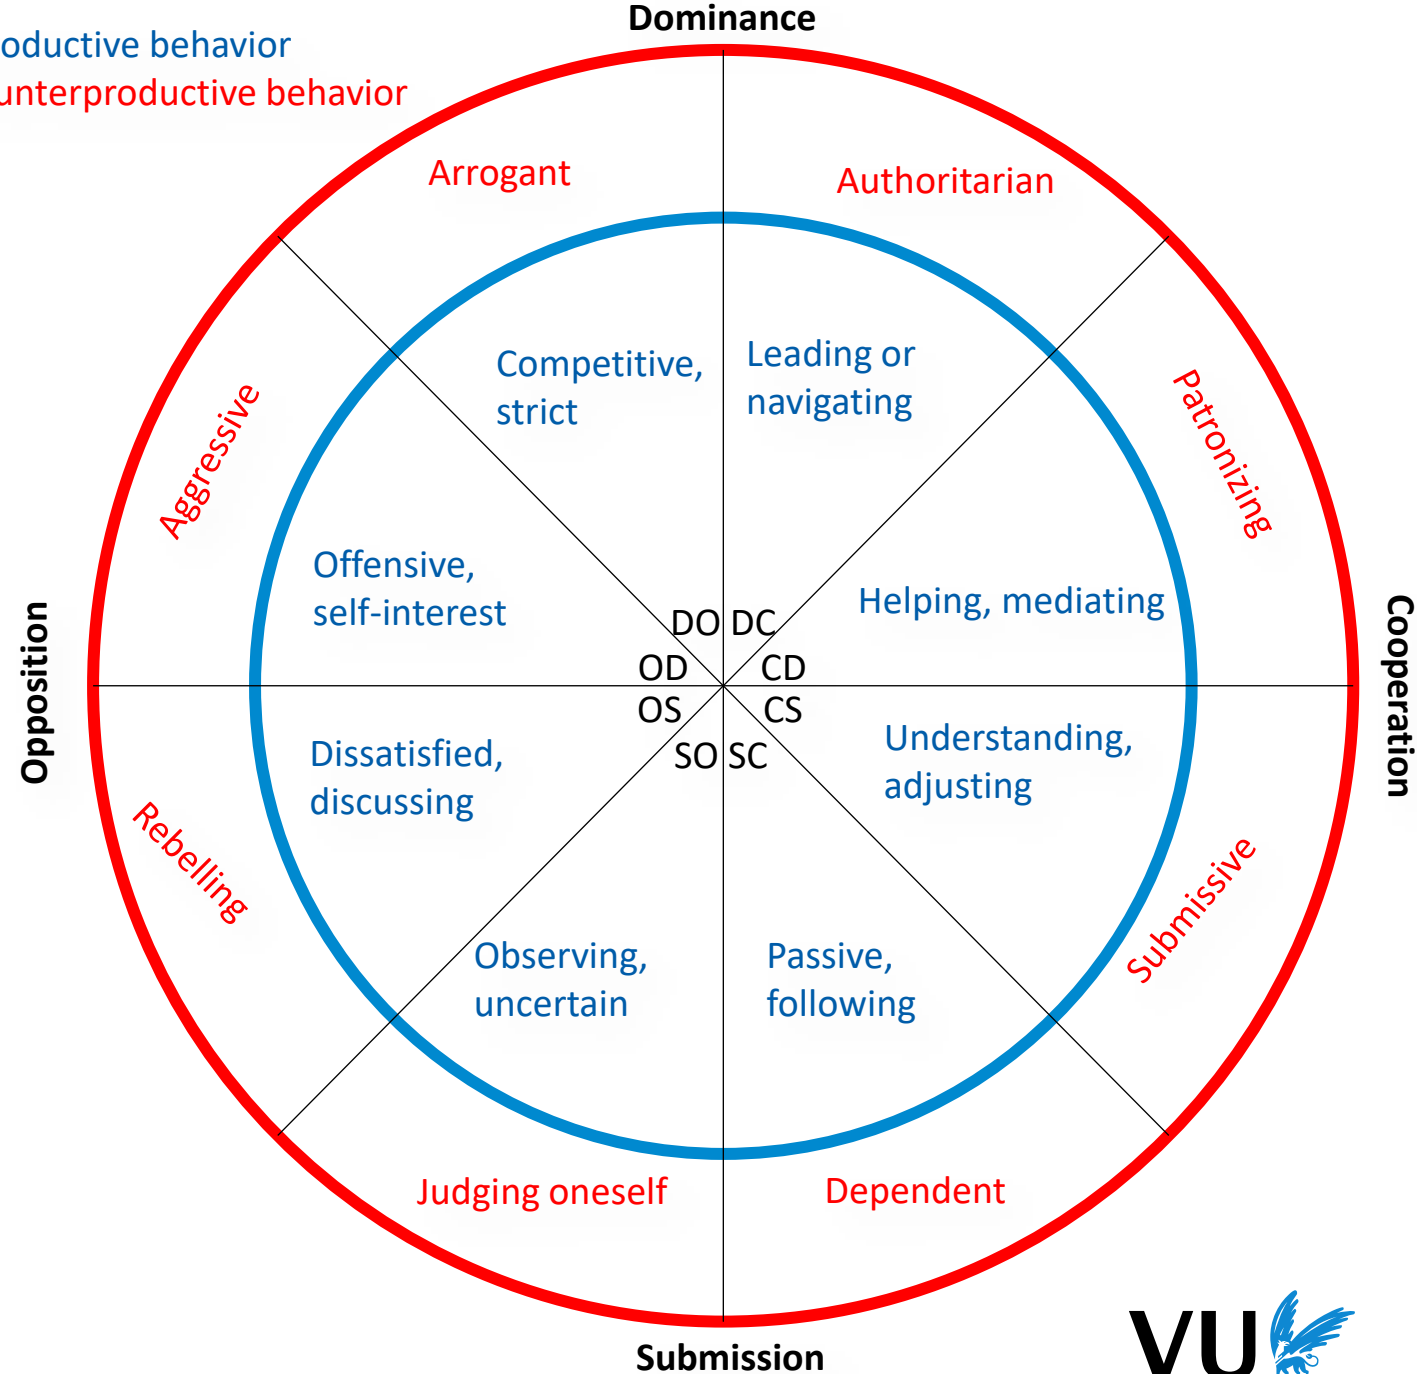

Leary's Rose: Extremities

Each behavior has its qualities can be useful, in a specific situation!

But...

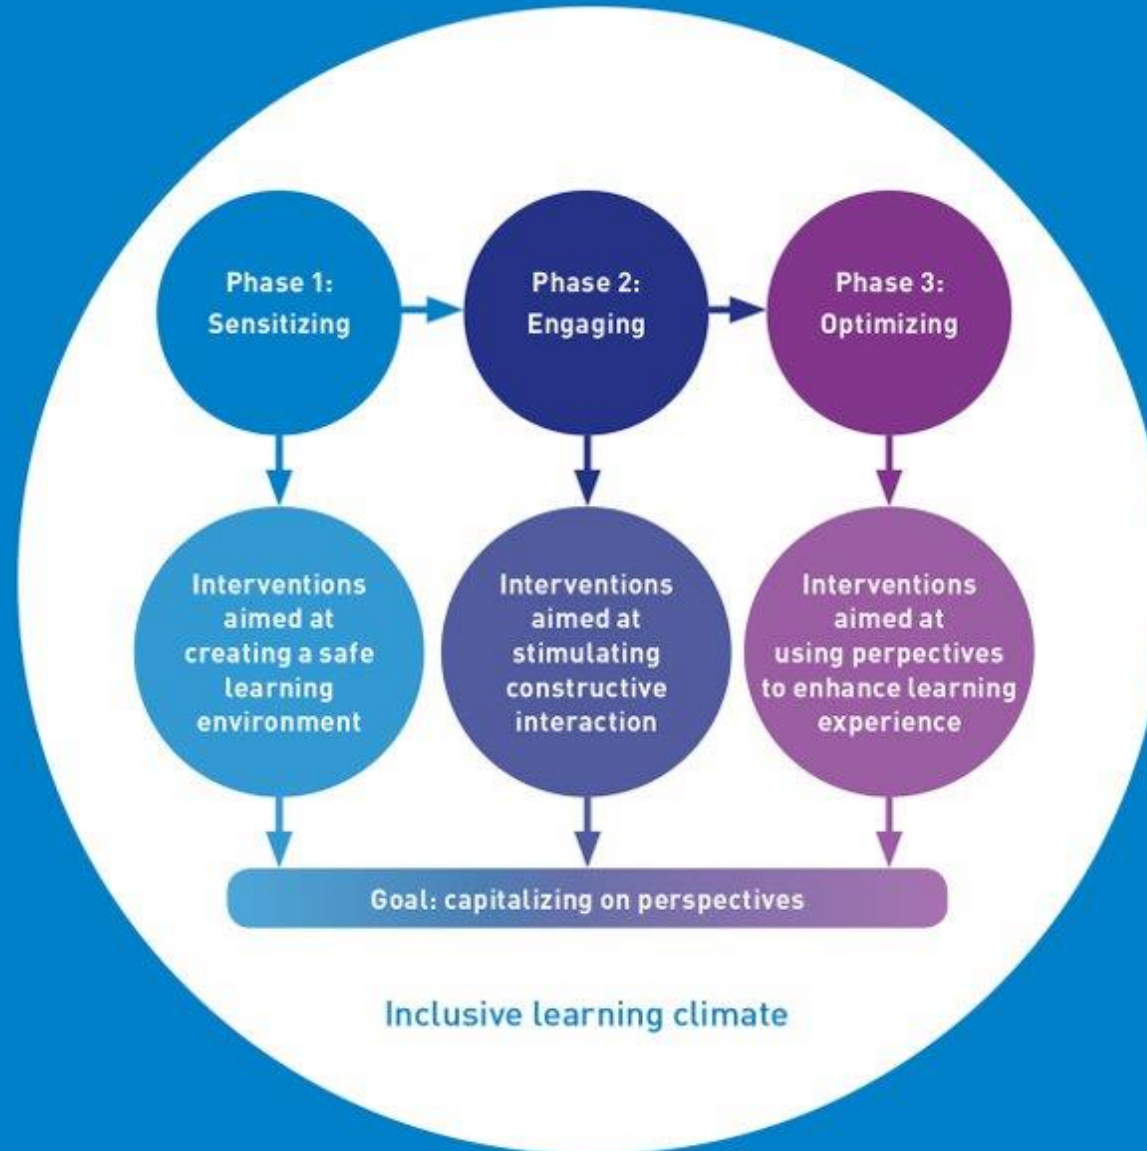

When under, for example, stress, this can lead to counterproductive behavior

Blue = productive behavior
Red = counterproductive behavior

THE VU MIXED CLASSROOM EDUCATIONAL MODEL

PHASE 1

Central questions:

- How do I create a safe learning environment?
- How can I get students to reflect on their own perspective?

Take time to learn more about:

1. Who is who? Who am I? And who are *'the others'*?
2. What do you need to in order to learn with safety and joy?

(What are our house rules?)

Ground Rules

What do you need to in order to learn with safety and joy?
